## Projects

---

### Joke App

[GitHub](#)

- Developed a dynamic Joke App using HTML, CSS, and JavaScript that fetches and displays random jokes from a public API.
- Implemented asynchronous API calls using fetch to ensure a smooth user experience.
- Emphasized responsive design and clean UI for an engaging and user-friendly interface.

### Portfolio Website

[Live](#)

- Designed and developed a personal portfolio website using HTML, CSS, and JavaScript to showcase projects and skills.
- Implemented a responsive layout with smooth navigation for optimal viewing across devices.
- Focused on clean UI/UX design to create a professional and modern web presence.

### Blog App

[GitHub](#)

- Built a blog web application to allow users to create and view blog posts.
- Used Node.js, Express.js, and EJS to handle backend logic and render dynamic content with timestamps.
- Delivered a functional platform with core blog features and an extensible structure for future upgrades.

## Certifications

---

Full-Stack Web Development (Udemy), Feb 3, 2025

## Activities

---

- **Hackathons:** Participated in Smart India Hackathon, collaborating with a team to develop a real-life tech solution under a national innovation challenge.
